THE FUTURE OF BUSINESS COMPUTING IS HERE

MARCH 15-18, 2010 | WWW.CLOUDCONNECTEVENT.COM

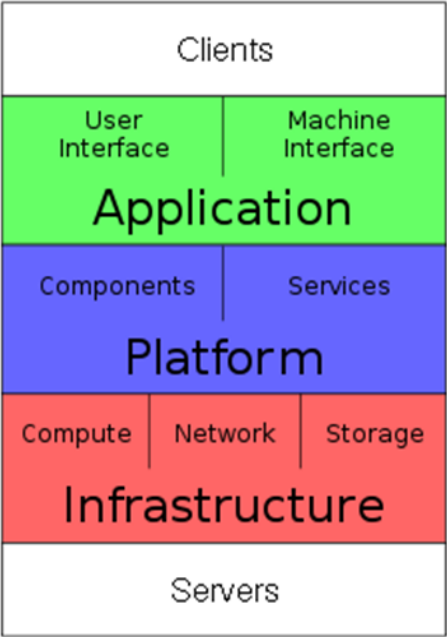

Santa Clara Convention | Silicon Valley, CA

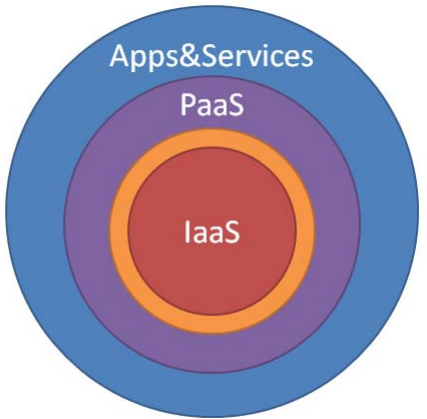

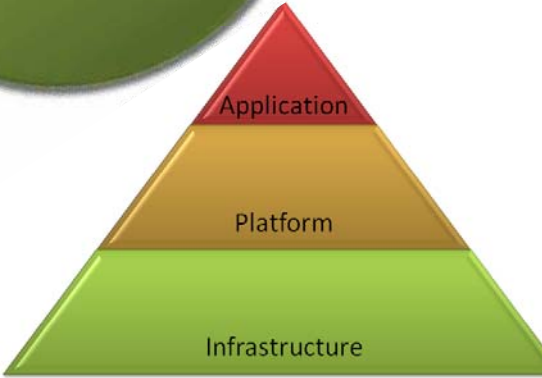

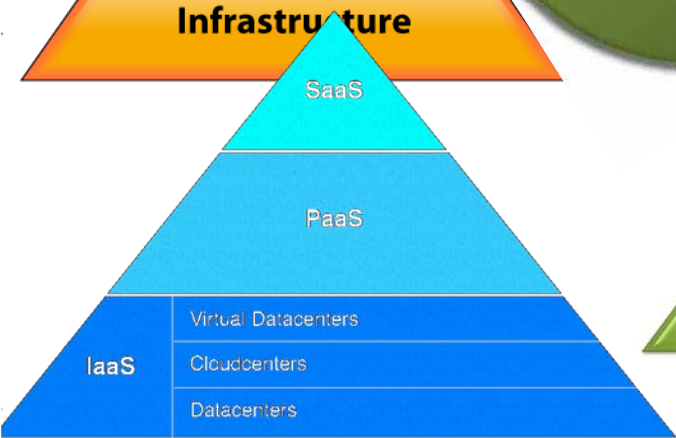

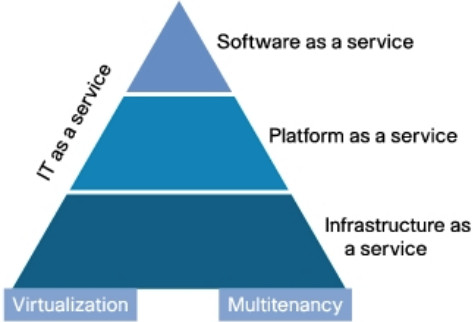

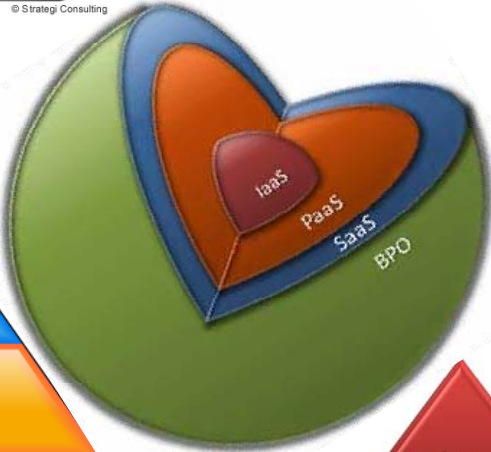

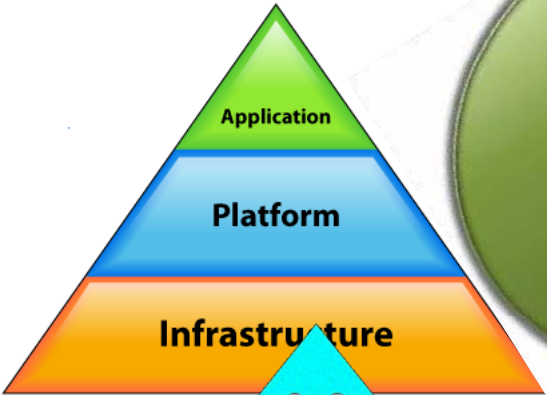

Software-as-a-service (SaaS)
Finished applications that you rent and customize

Platform-as-a-service (PaaS)
Developer platform that abstracts the infrastructure, OS, and middleware to drive developer productivity

Infrastructure-as-a-service (IaaS)
Deployment platform that abstracts the infrastructure

Cloud Computing Stack

THE FUTURE OF BUSINESS COMPUTING IS HERE

SaaS or POWA?

(Plain Old Web App)

APIs?

Amount of
stored data?

On-demand?

Customizable?

Scalable?

SLA?

Complexity?

Organization
mandate?

Customer-side
Admins?

Criticality of
data?

On-premise
alternative?

Payment?

Standards?

Etc...

Computational
service?

Compliance?

Pay-per-use?
